

REPORTMESSENGER

Today's automated report distribution solution for delivering
business intelligence information to your fingertips

REPORTMESSENGER

ReportMessenger is an easy-to-use report distribution tool that refreshes, personalizes and distributes your company's Tableau® reports to the hands of key decision makers effortlessly and reliably!

LET REPORTMESSENGER DELIVER YOUR REPORTS ON TIME, EVERY TIME

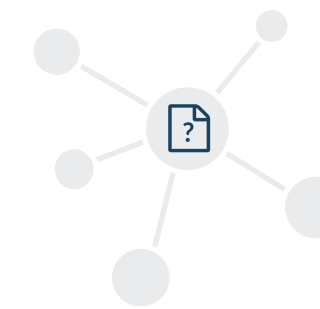

- Automatically administer & personalize reports from the Tableau® Server for an unlimited number of recipients.
- Distribute numerous reports via e-mail, network folders or your corporate intranet in your choice of industry file format.
- Allow administrators to manage report distribution easily and reliably.
- Save money and free up valuable resources and time.
- Easily extend the reach of critical data throughout your company.

**INFORMATION IS
THE KEY TO MAKING
STRATEGIC BUSINESS
INTELLIGENCE
DECISIONS**

DELIVERING VITAL INFORMATION TO YOUR FINGERTIPS

HOW DOES REPORTMESSENGER WORK

1

Key decision makers determine report distribution needs within the company

2

The administrator assigns recipients to one or more reports, easily guaranteeing that the data is personalized for each recipient

3

The administrator schedules the reports for distribution, choosing from a variety of file formats

4

ReportMessenger automatically refreshes, personalizes & delivers the scheduled reports to the recipients

REPORTMESSENGER

DELIVERING VITAL INFORMATION TO YOUR FINGERTIPS

AUTOMATED REPORT DELIVERY

Reports are delivered effortlessly and on time to a limitless number of recipients via e-mail or your corporate intranet:

- Recipients receive an e-mail with all scheduled reports (daily, weekly or monthly, depending on needs).
- Up-to-date reports can be scheduled through connection with Tableau® Server.
- Reports can be delivered via e-mail to recipients as attachments or published in a shared network folder or corporate intranet.
- Attachments can be compressed to shorten delivery time and minimize storage space.
- The text of the e-mail can be customised and the look & feel can be personalised to your brand guidelines.

WEB-BASED CONTROL PANEL

The ReportMessenger Control Panel is 100% web-based with a user-friendly and intuitive interface:

- Control panel with a clear overview of the status of all scheduled tasks.
- Easy to define user groups that will receive the same reports.
- Log in with Tableau® Administrator Account enabled.

SCHEDULE TASKS WITH EASE

ReportMessenger automatically executes the report refresh process for Tableau® workbooks and reliably delivers your BI information - when and how you need it most:

- Tableau® reports are refreshed automatically, then delivered in a variety of optional formats: PDF, enriched PDF, PNG, TWBX, CSV and PPT files.
- Extended scheduling capabilities to support the most complex report, refresh and delivery situations (daily, monthly, customized).
- Customizable filters ensure users will receive the information that is relevant to them.

RECOMMENDED REQUIREMENTS
